of ASX listed companies.

With an in-house team of writers, designers and developers, StocksDigital is equipped to take your company name and improve your investor facing appearance with a new website, new branding and

StocksDigital has a wealth of experience bringing small cap ASX listed companies to the attention of

journalistic support that your company deserves. StocksDigital websites are all designed and developed with your investors in mind.

They are highly functional and easy to use when viewing in your mobile device - with clear and visible share price monitoring and investor subscription capabilities

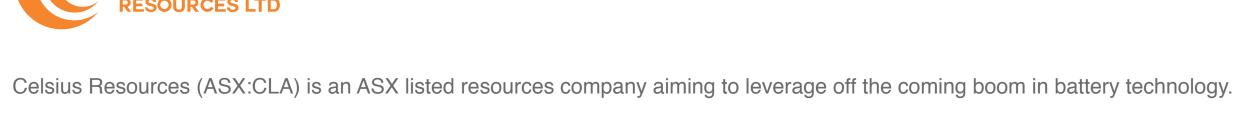

If you are ready to improve your digital strategy to attract and acquire a sustained long-term investor

audience using advanced digital advertising that will drive positive investor action we look forward to

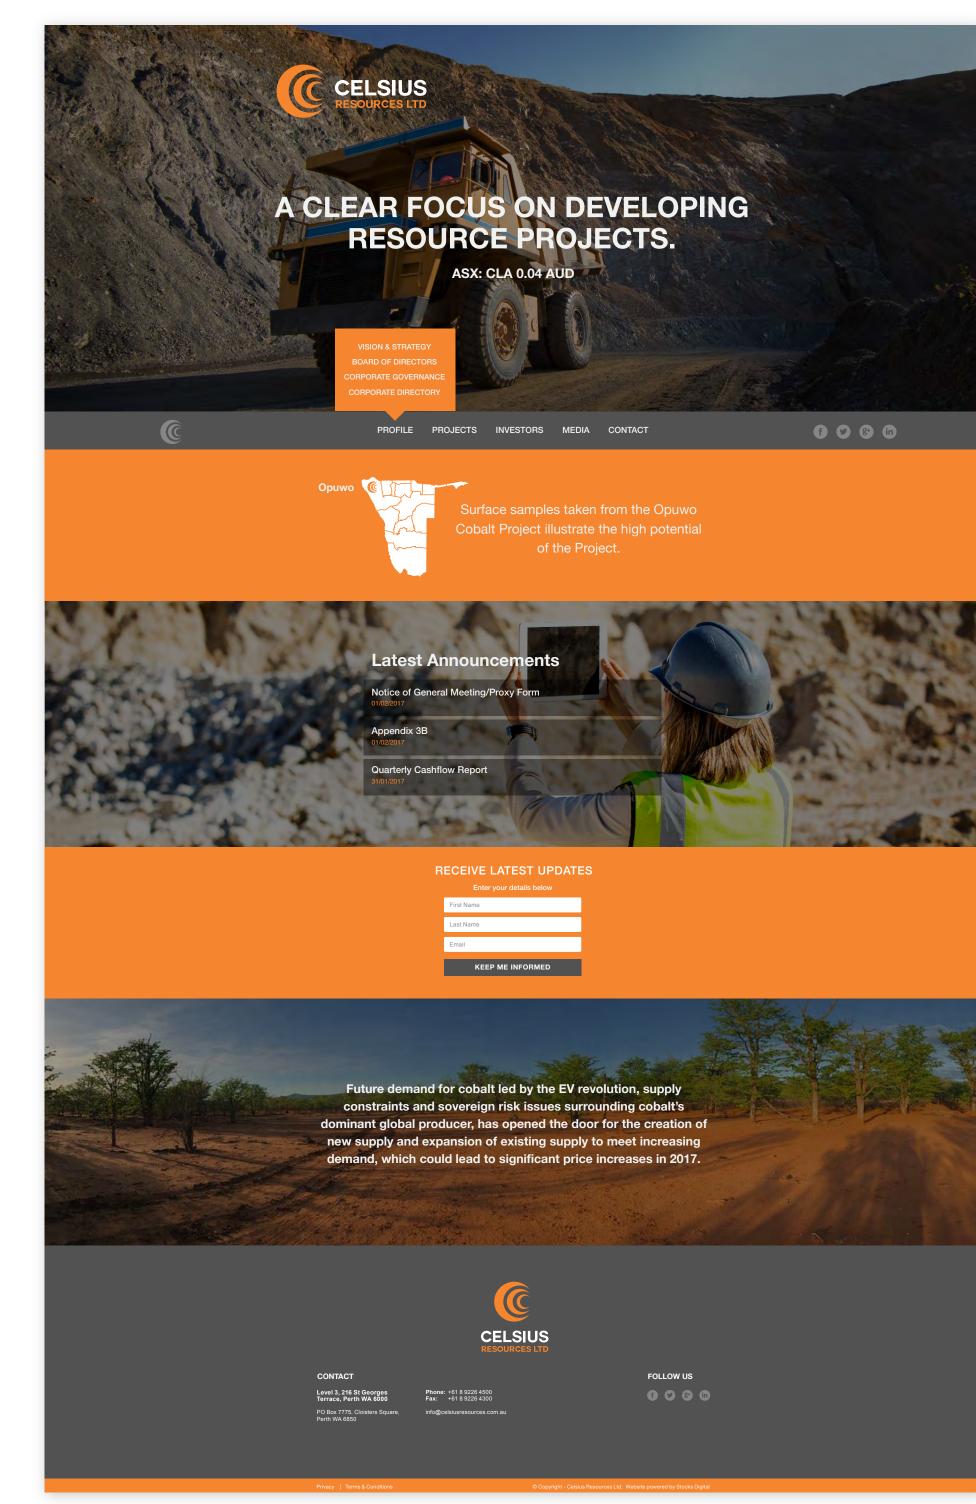

hearing from you.

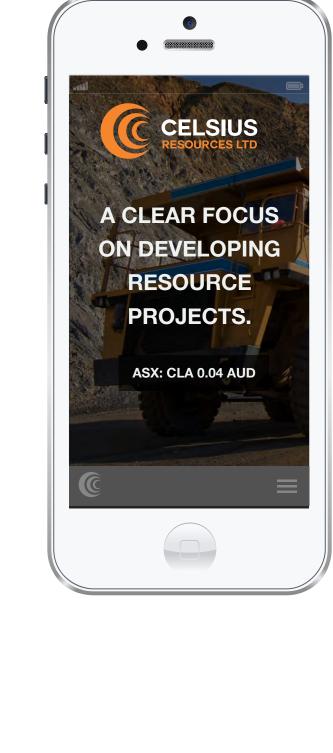

Examples of our work

a wider investor community.

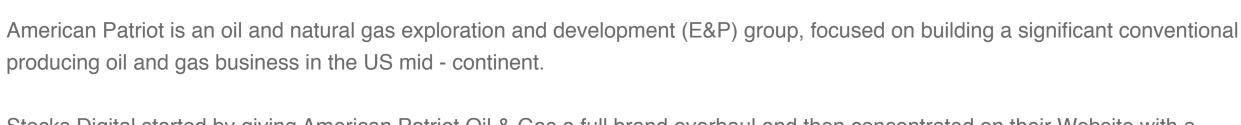

Celsius is currently focused on cobalt projects and is looking to strategically add projects with the potential to contribute metals and materials into the construction and usage of batteries.

🗮 AMERICAN PATRIOT

OIL AND GAS

Stocks Digital started by giving American Patriot Oil & Gas a full brand overhaul and then concentrated on their Website with a company projects page that used a simplified graphic approach to convey lots of information as per the users focus.

LET'S CHAT

A company's website is not simply a place to upload ASX announcements. Utilising your website to not only provide up to date

information on your company, but also interesting and relevant industry news makes you stand out from the crowd.

The website is a tool to ensure readers are converted into engaged followers – make sure yours is doing its job.
